

Medical Authorization Letter for Grandparents

To,

Whom It May Concern

We are Thomas Clinton and Jerry Clinton the parents of Bill Clinton are writing this medical authorization letter to grant the medical authority to the grandparent of my child. Our son is currently living with his grandfather in the USA and we are in our hometown. Being far away from our son we are unable to take the medical decisions on the health of our son. We are hereby announcing to authorize the grandparent of my son Mr. Jimmy Clinton as his legal guardian for the time being. The grandparent of our son would be in full authority to take medical actions for the welfare of our son.

Kindly consider this authorization letter fully legal in the views of the law of the respective region. The authorities can also reach us on our contact number to enquire more about this medical authorization. All the other in-depth details of this authorization are attached in the enclosure of the letter.

Thanks & Regards

Thomas Clinton

Jerry Clinton
